WASTE WOOD MANAGEMENT

NAME OF THE INNOVATION
Waste Wood Management

FOUNDER
Tanzeel Khan
Student

ABOUT THE INNOVATION

First of its kind in Srinagar, manufacturing of superior quality and premium finish furniture and other wood related products with the use of Epoxy Resin. Epoxy provides robust, quick-drying, and protective coating for metals and other materials.They are ideal for several applications since they are easy and quick to apply, unlike traditional heat-cured powder coatings. Our venture is the first of its kind to use scrap wood to create masterpieces in combination with epoxy.
