Background

Sher-e-Kashmir University of Agriculture Sciences and Technology of Kashmir as leading Agriculture University is marshalling its human resource for providing an enabling environment for producers and growers, so as to build their capacity to renovate the green economy of the country and to be the leaders of the change. SKUAST-Kashmir is trading a path to train young minds for smart agriculture and produce entrepreneurs.

Advanced Research Station for Saffron and Seed Spices of Sher-e-Kashmir University of Agriculture Sciences and Technology of Kashmir is only destination in the country that provides solution to all challenges of saffron from production to consumption. With strong efforts of ARSSSS, SKUAST-Kashmir “Saffron Heritage Site of Pampore” has been recognized as “Globally Important Heritage System” by Food and Agricultural Organization, Rome (2011). Moreover, Uniqueness and Historical proofs for Kashmir Saffron has been rewarded by Patent Authority of India in the form of *Geographical Identification (GI) Tag to Kashmir Saffron*.

Saffron crop has a unique geographical existence representing a special niche ecosystem of Kashmir, where it is predominately cultivated and SKUAST-Kashmir to be at forefront has not only given stability to the saffron area, production and productivity but has also opened new options for promoting saffron cultivation in new areas that is expected to

increase saffron production. With changing climatic scenario coupled with high national and international demand for Saffron, SKUAST-Kashmir

conceptualized the idea of Indoor saffron farming. The idea has been incubated over the years with increased productivity and quality of the commercial saffron produce. Keeping in view the importance of Indoor Saffron Technology and enthusiasm of stakeholders, SKUAST-Kashmir is organizing seven days National Training programme to provide scientific knowledge for growing saffron indoors.

Invitation

SKUAST-Kashmir cordially invites the youth and innovative minds of India to actively participate for honing their skills in the seven days National Training programme to be held at Sher-e-Kashmir University of Agricultural Sciences & Technology of Kashmir, J&K India from March 09-15, 2023.
